Cornerstone's Child Protection Standards

Cornerstone takes child protection very seriously and we operate a protection policy in line with South Oxfordshire District Council's children young people and vulnerable person's Safeguarding Policy. A full list of our child protection standards is available – please ask if you would like a copy.

Here we list the rights and responsibilities of Cornerstone and of children's parents/guardians. Please read this and signing the front of this document signifies your understanding and agreement with our standards of protecting your child.

A Parent/guardian enrolling their child for an activity run by Cornerstone will:

Be responsible for deciding whether their child can enter and/or leave our site unaccompanied and tell us this. NB We will not accept under 8 year olds arriving or leaving unaccompanied

'Hand over' your child to the receptionist before the start of the activity to log in to the register and must collect them at the end

Be responsible for your child on site before the published start time of an activity and after the published end time of the activity

Ask your child to wait on site for you to collect them

Raise any concerns you have about Cornerstone as a public building, with Cornerstone staff. Parents/guardians are welcome to remain on site whilst their child is in an activity. Parents/guardians **MUST** remain on site whilst their child is in an activity if that child is under 5 years old

Cornerstone will:

Be 'in loco parentis' for your child from the published start time to the published end time of the activity. NB We are not 'in loco parentis' if your child comes to a show in the auditorium unaccompanied

CRB check all Cornerstone staff who may be present on the premises whilst your child is in an activity

Risk assess both the building and the activity and take the assessed precautions

Hold a register of all children in classes and a log book of incidents

Publish a code of conduct for children in classes and for tutors and monitor this
